

CRS 2008 v8.0p2 Selected Measures Report, Performance Measure Topic List

***Indicates Non-GPRA Measure Included in Other National Measures (ONM) Report**

2008 National GPRA Report Topics	Other Non-GPRA Clinical Performance Measure Topics
1. Diabetes Prevalence (<i>reported in GPRA as a background measure, although it is not reported for performance purposes</i>)	1. Diabetes Comprehensive Care*
2. Diabetes: Glycemic Control (<i>contains 2 GPRA measures: Poor Control and Ideal Control AND background measure Documented A1c</i>)	2. Diabetes: Access to Dental Services
3. Diabetes: Blood Pressure Control	3. Adolescent Immunizations*
4. Diabetes: Lipids Assessment	4. Appropriate Treatment for Children with Upper Respiratory Infection
5. Diabetes: Nephropathy Assessment	5. Appropriate Testing for Children with Pharyngitis
6. Diabetic Retinopathy	6. Tobacco Use and Exposure Assessment*
7. Access to Dental Services	7. Alcohol Screening and Brief Intervention (ASBI) in the ER
8. Dental Sealants	8. Antidepressant Medication Management
9. Topical Fluoride*	9. Obesity Assessment*
10. Adult Immunizations: Influenza*	10. Nutrition and Exercise Education for At-Risk Patients
11. Adult Immunizations: Pneumovax*	11. CVD and Cholesterol Screening*
12. Childhood Immunizations*	12. CVD and Blood Pressure Control*
13. Pap Smear Rates	13. Controlling High Blood Pressure
14. Mammogram Rates	14. Appropriate Medication Therapy after a Heart Attack*
15. Colorectal Cancer Screening*	15. Persistence of Appropriate Medication Therapy after a Heart Attack*
16. Tobacco Cessation	16. Appropriate Medication Therapy in High Risk Patients*
17. Alcohol Screening (FAS Prevention)	17. Cholesterol Management for Patients with Cardiovascular Conditions*

2008 National GPRA Report Topics	Other Non-GPRA Clinical Performance Measure Topics
18. Intimate Partner (Domestic) Violence Screening	18. Heart Failure and Evaluation of LVS Function*
19. Depression Screening*	19. HIV Quality of Care
20. Childhood Weight Control	20. Chlamydia Testing
21. Comprehensive CVD-Related Assessment	21. Sexually Transmitted Infection (STI) Screening*
22. HIV Screening (renamed from Prenatal HIV Testing)	22. Osteoporosis Management
	23. Osteoporosis Screening in Women
	24. Rheumatoid Arthritis Medication Monitoring
	25. Osteoarthritis Medication Monitoring
	26. Asthma
	27. Asthma Quality of Care
	28. Asthma and Inhaled Steroid Use
	29. Chronic Kidney Disease Assessment
	30. Prediabetes/Metabolic Syndrome*
	31. Medications Education
	32. Public Health Nursing*
	33. Breastfeeding Rates*
	34. Drugs to be Avoided in the Elderly
	35. Functional Status Assessment in Elders
	36. Fall Risk Assessment in Elders
	37. Palliative Care

CRS v.8.0 (2008) HEDIS Report Performance Measure Topic List

HEDIS Report Performance Measure Topics	Included in HEDIS Report Only?	Corresponding Topic in National GPRA and/or Selected Measures Reports	Includes Differences from Same Topic in Other CRS Reports?
1. Childhood Immunization Status		Childhood Immunizations	CRS topic includes additional denominators and numerators.
2. Adolescent Immunization Status		Adolescent Immunization	CRS topic includes additional numerators and denominators.
3. Treatment for Children with Upper Respiratory Infection		Appropriate Treatment for Children with Upper Respiratory Infection	CRS topic includes additional denominator.
4. Appropriate Testing for Children with Pharyngitis		Appropriate Testing for Children with Pharyngitis	CRS topic includes additional denominator.
5. Colorectal Cancer Screening		Colorectal Cancer Screening	CRS topic includes additional denominators and numerators and the logic for colonoscopy, barium enema, and FOBT is different.
6. Breast Cancer Screening (Mammogram)		Cancer Screening: Mammogram Rates	HEDIS topic uses different age range (52-69 vs. 52-64 in CRS). CRS topic includes additional denominator and numerators and additional HCPCS and CPT codes in the mammogram definition.
7. Cervical Cancer Screening (Pap Smear)		Cancer Screening: Pap Smear Rates	HEDIS topic uses different age range (24-64 vs. 21-64 in CRS). CRS topic includes additional denominator and numerators and additional ICD-9 codes in the Pap smear definition.
8. Chlamydia Screening in Women		Chlamydia Testing	CRS topic includes additional denominator.

HEDIS Report Performance Measure Topics	Included in HEDIS Report Only?	Corresponding Topic in National GPRA and/or Selected Measures Reports	Includes Differences from Same Topic in Other CRS Reports?
9. Osteoporosis Management in Women Who Had a Fracture		Osteoporosis Management	CRS topic includes additional denominator.
10. Controlling High Blood Pressure		Controlling High Blood Pressure	HEDIS reports on controlled BP, defined as <140/90 whereas CRS breaks down BP by normal and 4 stages of hypertension. CRS denominator is also broken down by gender.
11. Beta-Blocker Treatment After a Heart Attack	Yes		
12. Persistence of Beta-Blocker Treatment After a Heart Attack	Yes		
13. Cholesterol Management for Patients with Cardiovascular Conditions		Cholesterol Management for Patients with Cardiovascular Conditions	HEDIS measures only LDL done and LDL <100 whereas CRS measures LDL done, LDL ≤100, 101-130 and >130 in CRS). CRS also includes an additional denominator.

HEDIS Report Performance Measure Topics	Included in HEDIS Report Only?	Corresponding Topic in National GPRA and/or Selected Measures Reports	Includes Differences from Same Topic in Other CRS Reports?
14. Comprehensive Diabetes Care		Diabetes Comprehensive Care	<p>Glycemic Control: HEDIS topic reports on poor and good Glycemic control (vs. documented A1c in CRS)</p> <p>Eye Exam (Retinal): HEDIS includes more CPT and ICD-9 codes for other eye exam.</p> <p>LDL Assessment: HEDIS includes LDL <100 numerator.</p> <p>Nephropathy Assessment: HEDIS uses a completely different definition for nephropathy assessment numerator</p> <p>Blood Pressure Control: CRS includes BP documented and HEDIS does not and HEDIS includes <140/90 and CRS does not.</p> <p>Foot Exam: HEDIS does not include.</p> <p>Comprehensive Measure: HEDIS not include.</p>
15. Use of Appropriate Medications for People with Asthma		Asthma Quality of Care	CRS topic includes additional denominators.
16. Antidepressant Medication Management		Antidepressant Medication Management	CRS topic includes additional denominator.
17. Drugs to be Avoided in the Elderly		Drugs to be Avoided in the Elderly	CRS topic includes additional denominator and does not include the numerators for the specific groups of drugs to be avoided (only includes numerators for patients prescribed one drug or multiple drugs).

HEDIS Report Performance Measure Topics	Included in HEDIS Report Only?	Corresponding Topic in National GPRA and/or Selected Measures Reports	Includes Differences from Same Topic in Other CRS Reports?
18. Medical Assistance with Smoking Cessation		Tobacco Cessation	HEDIS topic breaks out counseling on smoking cessation medications separately. CRS includes age and gender breakdowns and includes separate numerator for tobacco users who quit using tobacco during the report period.
19. Flu Shots for Adults 50-64		Adult Immunizations: Influenza	CRS topic includes additional denominators and numerators.
20. Flu Shots for Older Adults		Adult Immunizations: Influenza	CRS topic includes additional denominators and numerators.
21. Pneumonia Vaccination Status for Older Adults		Adult Immunizations: Pneumovax	CRS topic includes additional denominators and numerators.
22. Annual Dental Visit		Access to Dental Services	HEDIS topic includes numerator (User Pop 3-21) not included in CRS. CRS topic includes additional numerators.

CRS v.8.0 (2008) Elder Care Report Topic List

Elder Care Report (Patients 55+) Performance Measure Topics	Included in Elder Care Report Only?
Note: For most denominators in the Elder Care Report, the patient must be at least 55 years of age or older. For a few topics, the age ranges is 65 or older.	
1. Diabetes Prevalence	Y (different age range)
2. Diabetes: Glycemic Control	Y (different age range)
3. Diabetes: Blood Pressure Control	Y (different age range)
4. Diabetes: Lipids Assessment	Y (different age range)
5. Diabetes: Nephropathy Assessment	Y (different age range)
6. Diabetic Retinopathy	Y (different age range)
7. Diabetes: Access to Dental Services	Y (different age range)
8. Access to Dental Service	Y (different age range)
9. Adult Immunizations: Influenza	Y (different age range)
10. Adult Immunizations: Pneumovax	Y (different age range)
11. Cancer Screening: Mammogram Rates	Y (different age range)
12. Colorectal Cancer Screening	Y (different age range)
13. Tobacco Use and Exposure Assessment	Y (different age range)
14. Intimate Partner (Domestic) Violence Screening	Y (different age range)
15. Depression Screening	Y (different age range)
16. Obesity Assessment	Y (different age range)
17. Cardiovascular Disease and Blood Pressure Control	Y (different age range)
18. Cardiovascular Disease and Cholesterol Screening	Y (different age range)
19. Osteoporosis Management	Y (different age range)

Elder Care Report (Patients 55+) Performance Measure Topics	Included in Elder Care Report Only?
Note: For most denominators in the Elder Care Report, the patient must be at least 55 years of age or older. For a few topics, the age ranges is 65 or older.	
20. Osteoporosis Screening in Women	Y (different age range)
21. Osteoarthritis Medication Monitoring	Y (different age range)
22. Functional Status	N
23. Asthma	Y (different age range)
24. Public Health Nursing	Y (different age range)
25. Fall Risk Assessment in Elders	N
26. Drugs to be Avoided in the Elderly	N
27. Palliative Care	Y (different age range)

CRS v.8.0 (2008) Patient Education Report Topic List

Patient Education Performance Measure Topics	Included in Patient Education Report Only?
1. Rate of User Population Patients Receiving Patient Education	Yes
1. Rate of Time by Provider Discipline	Yes
3. Rate for Top 25 Diagnoses with Education	Yes
4. Rate for Top 25 Education Topics	Yes
5. Rate for Top 15 Provider Disciplines Who Educated	Yes
6. Rate of Patient Understanding of Education	Yes
7. Goal Setting	Yes

CRS v.8.0 (2008) Centers for Medicare and Medicaid Services (CMS) Report Topic and Measure List

CMS Report Measure Topics	
1. Heart Attack (AMI)	
AMI-1: Aspirin at arrival	
AMI-2: Aspirin prescribed at discharge	
AMI-3: ACE Inhibitor or Angiotensin Receptor Blocker (ARB) for left ventricular systolic dysfunction	
AMI-4: Adult smoking cessation advice/counseling	
AMI-6: Beta Blocker at arrival	
AMI-5: Beta Blocker prescribed at discharge	
AMI-7a: Fibrinolytic Therapy received within 30 minutes of hospital arrival	
AMI-8a: PCI received within 90 minutes of hospital arrival	
2. Heart Failure (HF)	
HF-1: Discharge instructions	
HF-2: Assessment of left ventricular function	
HF-3: ACE Inhibitor or Angiotensin Receptor Blocker (ARB) for left ventricular systolic dysfunction	
HF-4: Adult smoking cessation advice/counseling	
3. Pneumonia (PN)	
PN-1: Oxygenation assessment	
PN-2: Pneumococcal vaccination (for 65+)	
PN-3b: Blood cultures performed in the Emergency Department prior to initial antibiotic received in hospital	
PN-4: Smoking cessation advice/counseling	
PN-5b: Initial antibiotic received within 4 hours of hospital arrival	
PN-6: Appropriate initial antibiotic selection for community-acquired pneumonia	
PN-7: Influenza vaccination status	

CMS Report Measure Topics	
4. Surgical Care Improvement Project (SCIP)	
Inf-1: Prophylactic Antibiotic Received Within One Hour Prior to Surgical Incision - Overall Rate	
Inf-3: Prophylactic Antibiotics Discontinued Within 24 Hours After Surgery End Time - Overall Rate
